## ANZAC CEREMONY

Students and staff attended our ANZAC Ceremony on Wednesday, 2 May 2018.

Thank you to all our parents and carers, families and friends who attended our Assembly to celebrate neurodiversity on Monday.

Neurodiversity means many things to many people. One common understanding is that neurodiversity is the idea that neurological differences (differences in our thinking) like Autism are the result of normal, natural variations in the human genome. To me neurodiversity is the idea that everyone's brain is wired differently and those differences make our world amazing. If you would like further information please contact us.

Yours with complete inclusion,  
Leanne Gibson - Assistant Principal - Special Education
